RAIDER LYNCHED BY AN OHIO MOB

Caples Building.

Kills Saloon Keeper Searching for Whisky and Is Lynched.

Newark, Ohio, July 9 .- Carl Ether ington, 22 years old, employed Thursday night by the state anti-saloon league as s blind tiger raider, was lynched here 10:30 Friffay night, following a day of almost continuous rioting. The heavy doors of the Licking county jail were battered down and Etherington was dragged from his cell. He was shot, kicked and bruised before the street was reached, and the finish followed

Etherington, early in the evening, confessed he killed William Howard, proprietor of the "Last Chance" rastau-rant and former chief of police, in a afternoon. When news from the hospital that Howard had died passed over the city at 3 o'clock last night, the fury of the mob took definite form. Large battering rams were directed

ie micking count fail and the deputies were powerless The doors fell after hearly an hour's

Crying piteously, Etherington, a cur-ly-headed Kentuckian, who had been serving as a strike-breaker since he was released from marine service three months ago, was dragged forth.

"I didn't mean to do it." he wailed. His cries fell on deaf ears.

Feering that the mob spirit weuld not be satisfied by one victim, Sheriff Linke at once asked Adj. Gen. Weyebrecht for troops to protect six other "dry" raiders held at the city prison, in another section of the town. A hurried guard was thrown out in then The mob, after the first taste of blood, seemed to quiet down, but it is feared they will storm the city prison before morning.

Etherington's fast moments, while he heard the mob battering the doors, were spent in praying and writing a

notary public in Cochise county

prohibitionists will give up the fight if submission is defeated and Colquitt is elected is the merest bosh. It will mean the girdling of the loins of the prohibitionists for another determined effort. The fight will not be given up by them fore the whole people and a majority of votes cast either for or against it. If it should be defeated at the polls in a general election it would mean a sation of the agitation for several years. Statutory state wide prohibition as advocated by Cone Johnson, one of the prohibition candidates for gover-nor, is a temporary expedient to serve until the masses of suffragitsts can cass upon the proposed amendment to

Getting Into Deep Water. Looking at the situation from an est and impartial standpoint, the professional politicians who are leading the anti-prohibitionists in this fight will get that element of the Democratic party in deeper water than it can weather if they succeed in bringing about the election of Mr. Colquitt. It is fact so plain that it ought to be apparent to every thinking man. submission of state wide prohibition to vote of the people is bound to come, Colquitt or no Colquitt. His nomination will bring it about more quickly than if R. V. Davidson is elected and fully as soon as if the successful candidate is Johnson or William Poindexter, That s not all that the anti-prohibitionists have cause to fear and expect. The elec-tion of Colquitt will cause radical antisaloon legislation to be attempted by the legislature at its coming special session, unless all signs fall. Governor Campbell will be in position to play trumps, and no person who is in touch with his ideas and sympathies in the present gubernatorial contest believes that he will not take advantage of the pportunity that will be effered him to render aid to the cause of the prohibi-To what extent he will go in recommending anti-saloon legislation is at this time problematical.

It is quite generally conceded that should Mr. Colquitt be defeated for the nomination of governor, the special ses-ston will be a comparatively tame af-fair; that the lawmaking body will devote its efforts chiefly to the enactment of a new fire insurance law and the transaction of other business of minor importance. Governor Campbell will not touch off the fireworks unless Colquit should be the victor in the primaries to be held July 23. He is prepared to give one of the biggest pyrotechnic displays ever witnessed in Austin In the event of that possible contingency. Davidson Gets Support.

According to reports that have been received here from different parts of the state during the last week or 10 days Mr. Davidson's views on the ques-tion of submitting the proposition of amending the constitution so as to pro-vide for state wide prohibition to vote of the people is meeting with the support of the more conservative anti-pro-hibitionists all over the state. Mr. Davidson believes that if a majority of Democrats east their votes in the coming primaries in favor of the submission proposition it is the duty of the legislature to comply with that command. He has always been a consistent anti-prohibitionist and this fact is caus ng him to gain strength from that faction of the party. It is claimed by Da vidson's campaign managers that he will split the anti-prohibition vote in south Texas with Colquitt and that he will receive practically all of the antiprohibition anti-Bailey vote in the remaining portions of the state. If this estimate of the situation is true Mr. Davidson will win the contest. Some o the Davidson leaders are claiming that that candidate will be first. Johnson second, Colquit third and Poindexter fourth.

Johnson's Race

It is interesting to note the sanguin-ity of the Johnson supporters all over the state. They profess to believe tha Mr. Johnson will be nominated by handsome plurality. They say that the race is between Johnson and Colquitt. If the large crowds who attend the Johnson meetings are any criterion the views of his supporters are based on good grounds. He has by far the largest audiences of any of the candidates His speeches have been freer of criticism of his opponents than any of the men who are running against him. He not antagonized his enemies. He is in position to receive the support of erstwhile Davidson or Poladexter men should a change in conditions arise that would invite any changes of allign-ment. He has conducted his campaign on a high, moral plane, and the effect has redounded to his benefit,

There is a revival of the report that strong pressure is being brought to bear upon Mr. Poindexter by senator J. W. Balley to have him withdraw from the race. Mr. Poindexter is said pletion to have rejected these overtures. It was generally thought a few weeks ago that he would pull out of the contest in the latter days of the campaign, but it to straighten out the Rio Grande tangie is now said that he is showing a strong and plan this greatest irrigation pro-will of his own and he will remain ject in the world. After his work here in to the finish. It is considered sig-nificant that Mr. Balley has not come to the aid of his candidate after inducing him to enter the contest. It is reported in this connection that certain men who are prominently identified with Mr. Colquitt's candidacy have written letters to Mr. Bailey urging him to stay out of the gubernatorial fight in Texas. These self-appointed advisers have been Balley's most loyal support-ers in his past political contests. It is said that they have grave fears of the possible effect that the appearance of Bailey upon the stump in Texas at a critical period in the campaign might have on the candidacy of Mr. Colquitt. Those friends of the junior senator claim that he can pay the debt of grati-tude which he owes the anti-prohibition organization better by remaining out of the present contest than by taking

a speech making part in it.
In every part of the state, with the ossible exception of south Texas, the scalled Balley question is one of the called upon to explore, plan, and dechief factors in the campaign. The man who is a consistent prohibitionist and others have not gone, and to start Balley supporter is a follower of Poin- afresh along new paths where others dexter. The anti-Bailey prohibitionists = are supporting Johnson, with a scattering in favor of Davidson. The antiprohibitionist Bailey supporters are found chiefly in the ranks of the Colquitt contingent, while the anti-prohibi-tionists anti-Bailey are almost chiefly lined up for Davidson, it is claimed.

REALTY SALES.
